

Vo Khanh Tuong

Apply for fresher .Net developer

Dong Nai, Viet Nam • vokhanhtuong.293002@gmail.com • <https://github.com/KhanhTuong3002> • 0703918692

EDUCATION

FPT University

CanTho, VietNam

Bachelor of Software Engineering.

Major in Cross-Platform Programming with .NET, Concentration. GPA 3.04/4

26/10/2024

Relevant Coursework: Unity Game Develop, Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Database Systems

PROJECT EXPERIENCE

Organization: Personal Project

Project : Social Media Website Miao

Role: Core Developer

- Designed and developed a full-stack social networking web application using ASP.NET MVC, SQL Server, and HTML/CSS.
- Implemented core features authentication, post creation, likes, comments, and user interaction management.
- Integrated real-time chat functionality using SignalR, enabling instant messaging between users.
- Designed and managed relational database schemas to support user data, posts, and interactions efficiently.
- Applied MVC architecture to improve code maintainability, scalability, and separation of concerns.

Organization: FPT University

Project: Graduation Thesis – GeoTycoon Game: Experience Wealth and Geography

CanTho 2024

Role: Team Leader & Core Developer

- Led a development team to design and implement an **educational board game inspired by Monopoly**, integrating Vietnamese geography knowledge.
- Developed core game-play mechanics using **Unity** and **C#**, focusing on turn-based logic, player progression, and in-game economic systems.
- Designed and built a **web-based admin system** using **ASP.NET MVC** to manage content and question resources.
- Implemented **SQL Server** database architecture to store geography questions, game data, administrative records.
- Managed source control and team collaboration using **Git**, ensuring version control and efficient workflow.

Organization: NEXON Networks VINA

HCM city

QA Game Tester

- Assisted in game quality assurance processes, including test case creation, gameplay testing, and bug reporting.
- Performed manual testing on game features to identify functional issues, UI/UX inconsistencies, and gameplay bugs while ensuring quality standards were met.

SKILLS & INTERESTS

Technical Skills

- Programming Languages: C# (.NET Framework), Java, C++
- Web Development: HTML, CSS, basic React
- Database: SQL Server, MySQL (DDL/DML)
- Game Development: Unity (C#)
- Software Testing: Performance Testing (PT), Integration Testing (IT), System Testing (ST)
- Version Control: Git, GitHub
- Productivity Tools: Microsoft Office

Languages

- English: Intermediate (professional working proficiency)
- Japanese: Basic (reading and simple conversation)
